

40 Core Java OOPs Interview Questions (Complete Set)

🎯 For: Freshers, Interns, Early Rounds

📌 Covers: Classes, Objects, Encapsulation, Inheritance, Polymorphism, Abstraction, Interface, Constructors, Keywords, and more

✅ OOP Principles & Basics (1–5)

1. What are the 4 main pillars of OOP in Java?
 2. What is the difference between Procedural and Object-Oriented Programming?
 3. What is a class in Java?
 4. What is an object in Java?
 5. How is memory allocated to objects?
-

✅ Constructors & **this/super** Keywords (6–12)

6. What is a constructor? Types of constructors?
7. What is constructor overloading?

8. Difference between constructor and method?
 9. Can a constructor be **final**, **static**, or **abstract**?
 10. What is the **this** keyword? Use cases?
 11. What is the **super** keyword?
 12. Can we call one constructor from another in the same class?
-

✓ **Encapsulation & Access Modifiers (13–15)**

13. What is encapsulation? How is it implemented in Java?
 14. What are access modifiers in Java? (public, private, protected, default)
 15. What is the difference between public, private, protected, and default access?
-

✓ **Inheritance (16–20)**

16. What is inheritance? Types of inheritance in Java?
17. Why does Java not support multiple inheritance using classes?

18. Can constructors be inherited in Java?
 19. What is method overriding? Rules of overriding?
 20. What is the difference between method overloading and overriding?
-

Polymorphism (21–24)

21. What is polymorphism? Types in Java?
 22. What is compile-time polymorphism (static binding)?
 23. What is runtime polymorphism (dynamic binding)?
 24. What is dynamic method dispatch?
-

Abstraction (25–28)

25. What is abstraction in Java?
 26. What is an abstract class?
 27. What is an interface?
 28. Difference between abstract class and interface?
-

✓ Interfaces (29–32)

- 29. Can a class implement multiple interfaces?
 - 30. Can interfaces have static, default, or private methods in Java 8+?
 - 31. What happens if two interfaces have the same method signature?
 - 32. Can an interface extend another interface?
-

✓ Object Class & Miscellaneous (33–36)

- 33. What is the `Object` class in Java?
 - 34. What are the important methods of the `Object` class?
 - 35. Can you override the `toString()` and `equals()` methods?
 - 36. What is the purpose of the `instanceof` operator?
-

✓ Static, Final, Overriding Concepts (37–40)

- 37. What is the difference between `final`, `finally`, and `finalize()`?
- 38. Can static methods be overridden? Why/why not?

39. Can we override a private or static method?
40. Can we create an abstract class without abstract methods?
